1.2 Names of the qualified trust services provided

‘Unifiedpost Digitally.Registered’

1.3 Current confirmation status

Unifiedpost SA is a qualified trust service provider (qTSP) according to Art. 24 of the eIDAS Regulation².

The last full conformity assessment according to Article 20(1) of eIDAS Regulation was accomplished with issuing the conformity certificate No. TelekomSecurity.031.0295.2022.

The current – 24 months periodic – conformity re-assessment of the qTSP according to §20(1) of the eIDAS Regulation serves the continuation of its status as a ‘qualified trust service provider’ according to Article 24 of the eIDAS Regulation for all qualified trust services offered by the qTSP in eIDAS context.

² REGULATION (EU) No 910/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC amended by the REGULATION (EU) 2024/1183 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 11 April 2024 amending Regulation (EU) No 910/2014 as regards establishing the European Digital Identity Framework

Current re-assessment is based on the Service Provision Practice Statement (SPPS) version 1.4 as of 08.09.2022 (unchanged).

The service description available to subscribers is given in the following manuals:

- Unifiedpost Digitally.Registered. Interface v1.3,
- Web portal User manual for new users, v1.0,
- Web portal User manual for authenticated users, v1.0.

The TSP provides these manuals to the Subscribers of the qualified trust service in scope.

2. TSP's trust services in scope of the conformity assessment

Unifiedpost SA operates and provides the following trust services in the qualified TSP operation as defined in the eIDAS Regulation, Article 3

- electronic registered delivery service (qualified trust service – EDS/Q;
URI: <http://uri.etsi.org/TrstSvc/Svctype/EDS/Q>).

Unifiedpost SA operates and provides the following eIDAS-related additional services:

- Registration (enrolment) of service subscribers (request submission, request verification, identification),
- Disabling and deletion of subscriber's accounts,
- Login of subscribers into the service platform (subscriber's identification and authentication): the Web portal or the service-dedicated API,
- Usage of qualified electronic registered delivery service for service subscribers as Sender and as Addressee,
- Usage of qualified electronic registered delivery service for natural persons, who are not service subscribers, as Addressee only.
- Operation of a web portal providing information about these services (<https://www.unifiedpost.be/solutions/documents/electronic-registered-mail>) that is available to all interested parties. It includes further subscriber information, the legal basis (General Terms and Conditions) as well as information on support and helpdesk. The service description - Unifiedpost Digitally.Registered. Interface v1.3, Web portal User manual for new users, v1.0 and Web portal User manual for authenticated users, v1.0 – are available to the Subscribers of the qualified trust service in scope.

- Support hotline for customers, which can be contacted under servicedesk@unifiedpost.com with the key word 'Digitally.Registered'.

Following qualified trust services are covered by the current conformity assessment:

Description of the trust service	'qualified trust service type' according to ETSI TS 119 612 V2.1.1, sec. 5.5.1

- Qualified timestamp service; this service is used for adding timestamps to the subscriber's electronic registered letters.

This service is provided by qualified trust service provider Namirial S.p.A., see chap. 5 for details.

- Identification service Itsme®.

This service is provided by Belgian Mobile ID NV, see chap. 5 for details.

A detailed information about the identification procedures and other customer related questions can be directly requested from the qTSP.

3. Certification programme

The current conformity assessment procedure has been performed in accordance with the Certification Program 031 'eIDAS TSP' (accredited area) of the Certification Body of Deutsche Telekom Security GmbH (certification program 031)'.

The Certification Body of Telekom Security is a conformity assessment body as provided by Article 3 paragraph 18 of eIDAS. The Certification Body of Telekom Security is accredited by the German Accreditation Authority (DAkkS; <http://www.dakks.de/en>, member of EA) for performing conformity assessment (audit) according to eIDAS requirements and according to ETSI EN 319 4xx/5xx; accreditation ID: D-ZE-21631-01-00 (former D-ZE-12025-01-00).

4. Assessment of the TSP's qualified operation

The current Service Provision Practice Statement (version 1.4 as of 08.09.2022) of the trust service provider "Unifiedpost SA" is suitable for the operation of a qualified trust service provider as defined by the eIDAS Regulation.

This Service Provision Statement of the trust service provider „Unifiedpost SA“ is implemented accordingly in practice.

The trust service provider „Unifiedpost SA“ operates the following trust services in compliance with the relevant requirements of the current version of the eIDAS Regulation:

Description of the trust service	'qualified trust service type' according to ETSI TS 119 612 V2.1.1, sec. 5.5.1
Electronic Registered Delivery Service	URI: http://uri.etsi.org/TrstSvc/Svctype/EDS/Q

Table 2: Trust services provided in compliance with eIDAS Regulation

5. Integrated Modules

For implementing the trust services in scope, the TSP uses the following already eIDAS-confirmed qualified services provided by module operators as delegated third parties, whereby single certified and not certified operational options of the modules are exactly stated in each related Conformity Certificates for the modules.

A single module can be used by the TSP as *exclusive* or *non-exclusive* service provided by the respective delegated third party (called 'module provider').

In case of the *exclusive* service by a module, the TSP shall use the module for the provision of the qualified trust services listed in chap. 4, Table 2 above. Therefore, the present Conformity Certificate covers the operation of the qualified trust services listed in chap. 4, Table 2 above solely using the respective modules.

In case of the *non-exclusive* service by a module, the TSP may operatively decide on the usage or non-usage of the module in the qualified TSP operation. Hence, the present Conformity Certificate for the TSP covers the TSP operation with this service as well as without it.

The table below represents a snapshot at the time of issuance of the present Conformity Certificate. Precise information on the modules of the *non-exclusive* services that are integrated by the TSP at a given time can be obtained from the TSP.

6. Summary and notes

1. The current Service Provision Practice Statement for trust service 'Digitally.Registered' of the trust service provider Unifiedpost SA is suitable for the operation of a qualified trust service provider as defined by the eIDAS Regulation and is implemented accordingly in practice.
2. The trust service provider Unifiedpost SA operates the trust services listed in chap. 4, Table 2 above in compliance with the relevant requirements of the current version of the eIDAS Regulation.
3. The present conformity certificate TelekomSecurity.031.0317.10.2024 is valid for the current Service Provision Practice Statement up to and including 14.10.2026. This validity period (that is, the maximum possible duration of TSP operation in compliance with the eIDAS Regulation) results from the specification of the eIDAS Regulation, Article 20 (1).
Since some modules integrated into the provision of the qualified trust services listed in chap. 4, Table 2 above do provide exclusive services to the TSP and the TSP cannot therefore remove them from qualified operation in the related context (see chap. 5), the validity period of the operation of the qualified trust services listed in chap. 4, Table 2 above is limited by the validity period of the conformity certificates for these modules (currently until 24.07.2026), but will be automatically prolonged, if the validity of respective eIDAS-conformity certificates is prolonged.
The validity of the present Conformity Certificate can be extended or reduced if the basics upon which it was issued allow an extension or make a reduction necessary.
